VELUX®										
ZZZ 234 Product Data Sheet										
Starting Production Code: Sales started March 2015										
Description	General	The primary function of the ZZZ 234 Instant Light Shaft is to provide ease of installation where box type light shafts are desired. Panel & molding materials are cut to proper length from factory, cutting of panel depth may be required. ZZZ 234 Instant Light Shafts are used as an interior finish between VELUX Skylights and the inside of sloped ceilings in roof pitches between 15 to 90 degrees. Hardware to assemble and properly install Instant Light Shaft is provided with the kit.								
	Variant	ZZZ 234 xxx 0000 (xxx = skylight size) (0000= A21 variant),								
Installation	Instructions	See installation instruction VAS 453900.								
	Roof Pitch	15 to 90 degrees								
Applications	Interior Light Shaft	Used to trim out interior of skylight for "box" type light shafts (Not flared)								
ZZZ 234 Sizes	Standard Sizes	C01, C04, C06, C08, C12, M02, M04, M06, M08, S01, S06								
	Standard Sizes	Not available for A06, D26, D06								
	Special Sizes	Special sizes not available								
Compatibility	Skylights - Type	A21 Deck Mount FS, VS, VSE, VSS
